

**IN THE COURT OF COMMON PLEAS
MORROW COUNTY, OHIO**

WARRANT TO CONDUCT ADMINISTRATIVE SEARCH

STATE OF OHIO :
 : SS
MORROW COUNTY :

TO: Scott Nally, Director of Environmental Protection and his authorized representatives, the Morrow County Sheriff or City of Mt. Gilead Chief of Police and his or her deputies, and such other persons as are necessary and proper to carry out the dictates of this warrant.

WHEREAS, there has been filed before me an Application for Issuance of an Administrative Search Warrant and one Affidavit requesting a warrant to conduct an administrative search, pursuant to R.C. 3734, specifically R.C. 3734.07 and 3734.20, based upon a finding that there is an administrative necessity and reasonable belief of substantial threat to public health or safety or a substantial threat of water pollution or soil contamination,

THEREFORE, you are hereby authorized in the name of the State of Ohio, during the daylight hours, to serve this warrant within three (3) working days from the issuance of this Order and remove all obstacles to entering and to enter onto the premises of the Taylor Industrial Services, LLC property (formerly known as HPM Plant #2) and its vicinity located at 820 West Marion Road, Mt. Gilead, Morrow County, Ohio ("Site") (see map, attached as Exhibit A), and any buildings or improvements thereon as well as other property in the immediate vicinity, to conduct an administrative inspection. Once this warrant is served, you are hereby instructed to complete the inspection/investigation within five (5) calendar days to fulfill the requirements of this warrant.

This Administrative Search Warrant includes the authority to enter and reenter, as needed during daylight hours for up to five (5) days following service of this warrant, upon the property,

described above, which comprises the Site to do the following:

(1) Conducting such waste, soil, surface water, and ground water sampling or tests and to install such equipment as necessary to conduct such tests and to determine compliance or to achieve the purposes of R.C. Chapter 3734.

(2) Visually inspecting, physically sampling, observing, videotaping, and photographing in a reasonable manner all waste piles, dump sites, waste pits, potential waste storage and collection devices, drums, containers, equipment and contents therein and any other wastes found or disposed at the Site.

(3) Performing such further acts that are reasonably related to determine compliance with or to achieve the purposes of R.C. Chapter 3734.

YOU ARE HEREBY COMMANDED to conduct an administrative inspection/investigation of the above-named property and its vicinity in the manner described herein, serving this warrant, leaving a copy of this warrant and a receipt for any samples taken, prepare a written inventory of any samples taken, and return this warrant to me upon execution.

Waste, soil, surface water, and ground water samples are to be transported to such laboratory or laboratories as the Ohio EPA may designate for analysis.

Photographs, videotapes, and copies of any documents that are made by the Ohio EPA during the course of the search may be retained by Ohio EPA.

Originals of documents and any other property seized or obtained during the course of the search may be retained by Ohio EPA for review, as reasonably necessary, to determine compliance with R.C. Chapter 3734.

Given under my hand this ____ day of April, 2012.

JUDGE

Morrow County Court of Common Pleas
